Key Achievements

Metric	Achievement
33%	Quality improvement (6/10 → 8/10)
800+	Automated tests created
100%	FDA audit pass rate
5	Bug-free releases in a row

Professional Summary

- Quality-focused engineer who believes great software comes from great collaboration—4+ years partnering with developers, stakeholders, and end users to deliver reliable solutions
- Known for translating complex technical requirements into clear acceptance criteria and actionable test strategies that teams actually use
- Built trust with leadership by acting as technical bridge between C-Level vision and development execution, improving product satisfaction from 6/10 to 8/10
- Hands-on leader who empowers teams through knowledge sharing, automated testing frameworks, and streamlined processes (CI/CD, Three Amigos)
- Proven track record in high-stakes environments: 5 consecutive zero-bug releases, 100% FDA audit pass rate

Professional Experience

Quality Assurance | Rubidex

Mexico City | February 2025 - Present

Key Responsibilities:

- Improved product quality from 6/10 to 8/10 client satisfaction (33% increase)
- Built 800+ automated tests (600 unit, 200 integration, 10 E2E) serving dual purpose: validation and living documentation
- Led QA for 7 developers across 2 teams, blocking 5+ critical bugs pre-production

Additional Details:

- Implemented CI/CD pipelines for Frontend/Backend and agile processes: Three Amigos, Design Handoffs, Definition of Ready
 - Acted as technical bridge between C-Level and development, refining requirements and defining acceptance criteria for complex modules
 - Established change control governance and process standardization to protect sprint scope and mitigate risks
-

Software Quality Engineer | AspenTech

Mexico City | March 2021 - July 2024

Key Responsibilities:

- 5 consecutive releases with zero critical bugs (zero showstoppers)
- Passed 2 FDA audits + 3+ client audits with no critical observations
- Managed 1,600+ test cases for pharmaceutical spectrometry software (50 specialized users)

Additional Details:

- Delivered 7-8 successful releases for enterprise client with 3 interdependent products
 - Complete documentation under FDA 21CFR Part 11 and ISO 9001 compliance
 - Hybrid testing approach: 10% automated (critical flows) + 90% manual (regulatory flexibility)
-

Software Engineer | Infosys

Mexico City | July 2019 - February 2021

Key Responsibilities:

- L2/L3 technical support for 5,000+ users in Fortune 500 client (multi-continental operations)
- Resolved ~25 tickets/month in Oracle ERP Supply Chain using Python, SQL, and Java
- Collaborated in multicultural team for international enterprise-scale project

Additional Details:

- Basic Android development with Kotlin for internal tools
-

Engineering Intern | Pemex

Mexico City, Tula Hidalgo, Salina Cruz Oaxaca | September 2018 - March 2019

Key Responsibilities:

- Analyzed and collected data from gas production optimization system, performing ethylene production forecasting with predictions that accurately reflected subsequent national production decline
 - Visited 5 facilities (refineries, distribution centers, gas processing plants) for operational audits
 - Supported gas and liquid transportation process tracking
 - Gained exposure to large-scale industrial operations in energy sector
-

Education

Escuela Superior de Ingeniería Química e Industrias Extractivas (IPN)

Mexico City Bachelor's degree in Petroleum Chemical Engineering

Instituto Tecnológico de Buenos Aires (ITBA)

Buenos Aires, Argentina Exchange Program

Courses in Chemical/Industrial Engineering:

- Process Simulation and Optimization
 - Quality Management
 - Environmental Engineering
-

Technical Skills

AI & Development Tools

Antigravity, Claude Code, Gemini CLI, WindSurf

Programming Languages

TypeScript, JavaScript, Python, SQL, Java, C++

Testing & QA

Jest, Playwright, Vitest, SuperTest, Manual Testing, White-box Testing

Frontend & Backend

React, Next.js, Nest.js, Node.js

Code Quality & CI/CD

ESLint, Prettier, GitHub Actions, Git, Azure DevOps

Industry Software

Aspen HYSYS, Ranorex, AutoCAD, Postman, OPC Tools

Certifications & Licenses

- **Certified in ISO 9001:2015**
 - **Professional License** - Number: 12075687
-

Languages

- **Spanish** - Native
 - **English** - Professional Fluency
