PROFESSIONAL SUMMARY

- 4+ years in regulated software (FDA 21 CFR Part 11) and SaaS products
- Designed testing strategies and automation: 800+ tests (600 unit, 200 integration, 10 E2E)
- Delivered 5 consecutive releases with comprehensive test coverage and validation
- Passed 2 FDA audits and 3+ client audits with zero critical observations

PROFESSIONAL EXPERIENCE

QA Engineer | Rubidex

Mexico City | February 2025 - Present

- Built 800+ automated tests (600 unit, 200 integration, 10 E2E) serving as living documentation
- Led QA strategy for 7 developers across 2 teams, designing testing approach and validation processes from scratch
- Implemented CI/CD pipelines for Frontend/Backend; introduced agile practices: Three Amigos, Design Handoffs, Definition of Ready
- Designed acceptance criteria for complex modules, balancing product requirements with technical constraints
- Established change control governance and process standardization to protect sprint scope

QA Engineer / SDET | AspenTech

Mexico City | March 2021 – July 2024

- Delivered 5 consecutive releases as engineer responsible for end-to-end validation and testing coverage
- Passed 2 FDA audits and 3+ client audits with no critical observations
- Managed 1,600+ test cases for pharmaceutical spectrometry software used by 50 specialized users
- Delivered multiple releases for enterprise client with 3 interdependent products
- Authored and maintained validation documentation under FDA 21 CFR Part 11 and ISO 9001
- Designed hybrid testing approach: 10% automated for critical flows, 90% manual to preserve regulatory flexibility

Software Engineer | Infosys

Mexico City | July 2019 – February 2021

- Provided L2/L3 technical support to 5,000+ users for Fortune 500 client with multi-continental operations
- Resolved ~25 tickets/month in Oracle ERP Supply Chain using Python, SQL, and Java
- Built internal Android tools using Kotlin

Engineering Intern | Pemex

Mexico City, Tula Hidalgo, Salina Cruz Oaxaca | September 2018 – March 2019

- Analyzed gas production optimization data and performed ethylene production forecasting
- Visited 5 facilities (refineries, distribution centers, gas processing plants) for operational audits

- Supported gas and liquid transportation process tracking

EDUCATION

Escuela Superior de Ingeniería Química e Industrias Extractivas (IPN)
Mexico City — Bachelor's degree in Petroleum Chemical Engineering

Instituto Tecnológico de Buenos Aires (ITBA)
Buenos Aires, Argentina — Exchange Program

TECHNICAL SKILLS

Testing & QA	Jest, Playwright, Vitest, SuperTest, Manual Testing, White-box Testing
Programming	TypeScript, JavaScript, Python, SQL, Java, C++
Frontend & Backend	React, Next.js, Nest.js, Node.js
CI/CD & Tools	GitHub Actions, Git, Azure DevOps, Linux Environments, ESLint, Prettier
Industry Software	Aspen HYSYS, Ranorex, AutoCAD, Postman, OPC Tools
AI & Automation	Claude Code, Antigravity, AI-assisted test automation, Report generation automation

CERTIFICATIONS & LICENSES

- Experience working under ISO 9001:2015 standards
- Professional License (Cédula Profesional) - Chemical Engineering, Number: 12075687

LANGUAGES

- Spanish - Native
- English - Full Professional Proficiency
